<p><b>Support Services Offered:</b>                  Readiness Assessments, Vendor Selection Support, Negotiation Assistance, EHR Implementation Support, EHR Optimization Services, Post-Implementation Remediation Services</p>	
<p>Arcadia works with health care provider organizations to improve patient outcomes, drive operational and financial excellence, and ensure the highest possible patient, staff, and provider satisfaction. We do this through the innovative approaches to implementing and using foundational health care technologies, such as Electronic Health Records and Health Information Exchange, and the introduction of data-driven, continuous improvement initiatives.</p> <p>As the health care industry traverses an unprecedented crossroads, Arcadia works with providers to lower health care costs, reduce variation in outcomes, and improve access in care.</p>	

	<p><b>Concordant, Inc.</b></p> <p>Barbara Klein          617.513.9695  <a href="http://www.concordant.com">www.concordant.com</a></p>
<p><b>Support Services Offered:</b>          EHR Implementation Support, EHR Optimization Services, Post-Implementation Remediation Services</p>	
<p>Concordant provides full lifecycle Healthcare IT (HIT) services for medium to large physician organizations and for hospital/health systems and their affiliated physician practices. We design, integrate, implement and maintain your electronic health record (EHR), health information exchange (HIE) and compliant sharing of digital information across your entire enterprise and beyond. Specializing in ambulatory EHR implementations and the technology infrastructure that supports them, we are healthcare IT experts. We provide a full lifecycle of EHR project services to help organizations establish goals, design and implement systems, and support program success.</p>	

	<p><b>Covisia Solutions, Inc.</b></p> <p>Matt Sheehan                  781.895.5263  <a href="http://www.covisia.com">www.covisia.com</a></p>
<p><b>Support Services Offered:</b>                  Readiness Assessments, EHR Implementation Support, EHR Optimization Services, Post Implementation Remediation Services</p>	
<p>Covisia meets the challenge of clinical modernization by enabling you to reduce the complexity and costs of EMR delivery. We deliver true clinician mobility by providing application security for patient diagnostic and treatment information on any device, at any location. We address stringent privacy and security concerns by ensuring confidentiality for applications and information while building a foundation to comply with regulatory requirements, such as HIPPA. We also provide uninterrupted access to critical systems by implementing highly-available remote connectivity solutions that deliver business continuance and reduce greenhouse emissions and lower costs by adopting green computing strategies.</p>	

	<p><b>Quality Partners of Rhode Island</b></p> <p>Lauren Capizzo          401-528-3239  <a href="http://www.riqualitypartners.org">www.riqualitypartners.org</a></p>
<p><b>Support Services Offered:</b>          Readiness Assessments, Vendor Selection Support, EHR Implementation Support, EHR Optimization Services, Post-Implementation Remediation Services</p>	
<p>With our significant vendor-neutral EHR consulting experience, Quality Partners has become a leader in:</p> <ul style="list-style-type: none"> <li>• Assessing a practice’s readiness for an EHR</li> <li>• Working with a practice to strategically plan for an EHR Implementation</li> <li>• Providing support and project management expertise throughout implementation including working with vendors, facilitating dialogue, and advocating for physicians’ needs</li> <li>• Integrating the EHR into existing processes</li> <li>• Collaborating with practice staff to optimize the EHR’s reporting capabilities</li> <li>• Navigating the changing HIT environment-helping physicians understand and prepare for Meaningful Use</li> <li>• Supporting practices through post-implementation, assisting in remediation when necessary to better use the EHR</li> </ul>
